## What is PDK

PDK International, publisher of Kappan magazine, is a professional association for educators that brings together the top leaders, thinkers, and doers to collaborate and inspire one another.

By providing professional learning opportunities, targeted networking, and relevant research, PDK helps researchers and practitioners deepen their expertise, elevate their careers, and ultimately experience better results in their work.

- **Beginning teachers** get assistance through the myriad of activities that are new to them.
- **Mid-Career teachers** and administrators are rejuvenated by interacting with other colleagues in their field, while pursuing their own development.
- **Veterans** deepen their own understanding while mentoring newer colleagues and enjoying the exchange.

### Mission

To support education, particularly public education, as the cornerstone of democracy.

### Vision

To be the experts in cultivating great educators for tomorrow while continuing to ensure high-quality education for today.

### PDK International family of education associations

PDK is the original member of the PDK International family of education associations, which also includes Pi Lambda Theta (PLT) and the Future Educators Association® (FEA). Together, these three associations support the full spectrum of the education profession, beginning with FEA for precollegiate prospective educators, continuing with PLT for collegiate preservice and practicing teachers, and concluding with PDK, serving the professional needs of career educators.

## To move education forward at the local and national levels, we must work together.

### Local Chapter Affiliation

The University of Toronto PDK Chapter encompasses the Greater Toronto area and beyond.

The chapter focuses on the three tenets of PDK - research, service and leadership that benefits its membership at every stage of their career.

Our chapter helps to develop a sense of belonging to the exciting endeavor of education - locally, nationally, internationally.

Every year a series of research professional development sessions are provided locally, relating to current educational topics.

Chapter Members are encouraged to support local their local community and the University of Toronto PDK members are involved in a number of roles with Spelling Bee of Canada and the ChalkWalk fundraising activities.

Funds from the Chalk Walk provide awards for high school, university students and support **Spelling Bee of Canada**, our partner in the ChalkWalk.

Spelling Bee of Canada's mission statement emphasizes the development of young people's literary skills: "Enrich the learning experience of our children and youth through growth in English vocabulary, public speaking and promote self-confidence."
